March 2021

Project status

We have entered the final year of our project! EnDurCrete started in **January 2018** and was planned for **42 months** (end in **June 2021**). Despite the current COVID-19 situation, which is very challenging for all of us, the EnDurCrete project activities are ongoing and the project successfully progresses. Since some tasks and work were delayed due to national and international restrictions, a **6 month extension** is needed for the project to properly conclude all tasks and activities.

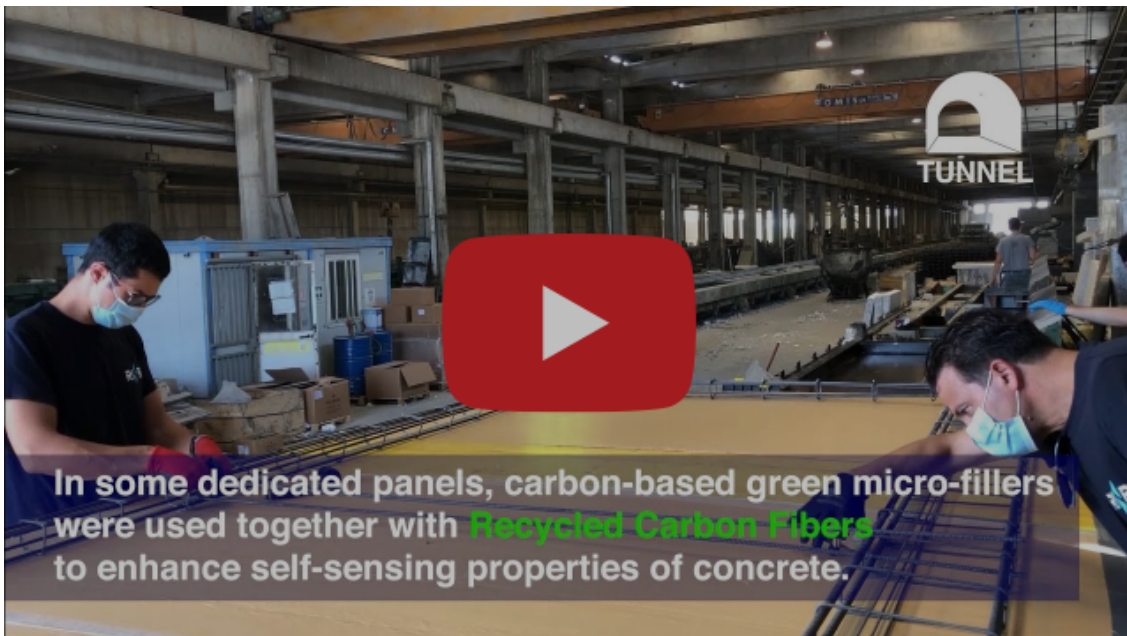

This means that the project will be ending in **December 2021**.

News

Casting of EnDurCrete elements

In July 2020, the casting of EnDurCrete elements took place in the [Nuova Tesi](#) facility. Check out the video of the whole process!

Demonstration site deployment

After the casting of EnDurCrete elements, it was time for deployment at the demonstration sites for further testing and monitoring. Check out the photos and videos from the deployment process of the four demonstration sites.

Project demo sites where technology applications will be tested

Port in Spain

Tunnel in Spain

Offshore structure in Norway

Krk Bridge in Croatia

Deployment of EnDurCrete elements at the Krk Bridge demonstration site in Croatia.

Nomination of EnDurCrete for the 2020 .eu Web Awards!

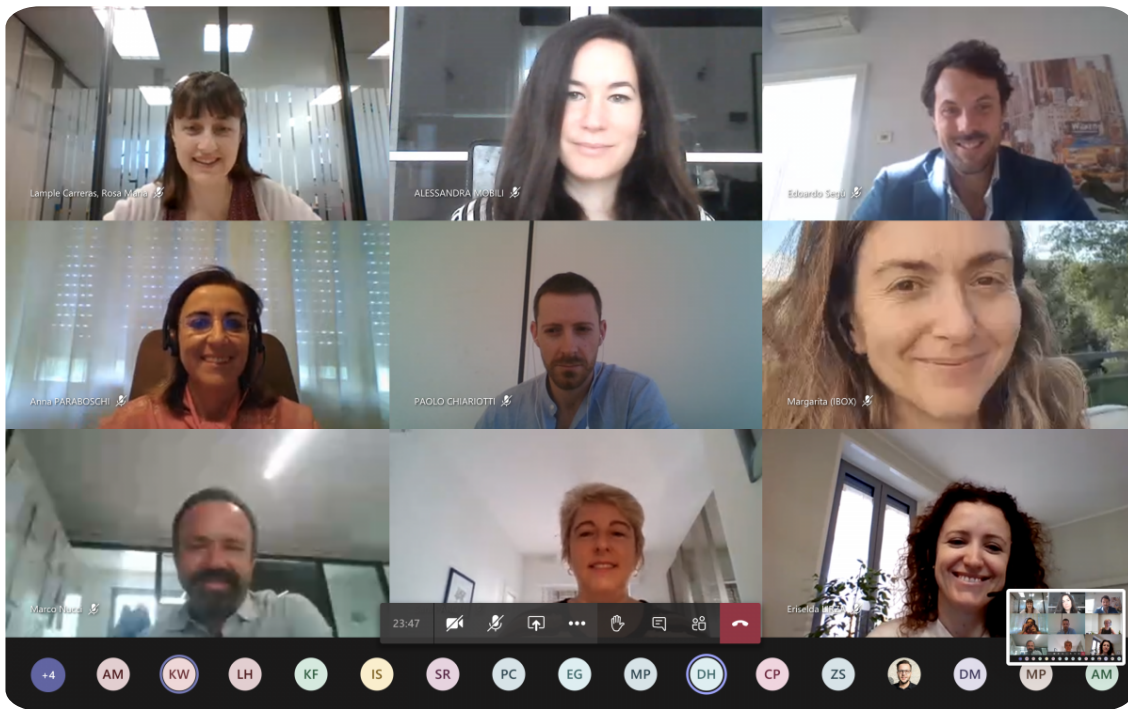

The [EnDurCrete project website](#) was nominated for the [2020 .eu Web Awards](#). We didn't make it to the final, but a big thank you to everyone who voted for us!

Recent events

Remote review meeting

In **June 2020**, we met at a remote **review meeting** with representatives of the [European Commission](#) to report and discuss the project progress.

WEBINAR - Towards greener and more durable concrete

In **October 2020**, a webinar was co-hosted together with [ReSHEALience project](#). The webinar was a successful event with **more than 130 attendees** and it presented the recent progress on both projects, mostly at the demonstration sites. It was a highly interactive session with lots of visual content (photos and videos) and polls.

Watch the recording of the entire webinar [HERE!](#)

General Assembly online meeting

At the beginning of **February 2021**, the project consortium met in an online meeting to discuss progress before the end of the project.
